# Suite Dreams

Slowly but surely more people are waking up to the fact that furniture covered in 100% pure new wool is more comfortable, more hard wearing and easier to care for than any other fabric available.

And, at the risk of sounding alarmist, far more flame retardant in the event of accidents with cigarettes or matches.

Take Sharnwood, the perfect compliment to any room decor. The frame is constructed from solid oak which, together with the luxurious cushioning gives a look and feel of inviting comfort and solidity that never goes out of style.

You're sitting pretty with

# Frayling

**in pure new wool...naturally**
